

Cecilia is an autodidact artist, harnessing her inner creativity & instincts to create each masterpiece with great detail. What makes Cecilia's art extra significant, is that she creates only one example of each canvas picture, which assures that you will own a unique artwork in your home.

Many of the motives in her artistic pictures are from different places in Oslo where Cecilia lives, and from her trips around the world. The artworks are built up of multiple layers forming a new and unique image, which is artistically modified to create a certain vibe. Most of her artworks also come with details in 24k gold and copper.

"Blind from Art – Black Dust"
